AWARD

- 13 September 2016 Amazon Web Service Certificate.
- 23 August 2011 DPU Smart Certificate.

PROJECTS

- 2012: A Web-based Information System for Bus Ticket Reservation on Android: The project is a Web-based Information System for reserving tour bus tickets. The user can reserve the tickets via a regular web browser on a desktop or via a web browser on a smartphone. The admin can add bus routes on Google Map and look at the reservation statistics on Google Chart. The project is developed with PHP, MySQL, HTML, CSS, jquery, and Google Map and Chart API.
- 2009: A Traffic Lights Model. The Project modeled a traffic light system with a 16f877 microcontroller. The system can count down and show the light according to the traffic. The project was implemented with C language.
